

TEST FOR WITCHCRAFT

Witchcraft can affect Christians who are coming out of their worldly life patterns and/or whose ancestors have witchcraft backgrounds. Obviously, involvement in satanic worship or witchcraft rituals constitutes witchcraft. However, rebellion to authorities (originated by the devil) is another form of it (1 Samuel 15:23) – that’s why non-submission makes us an open target for the devil (James 4:7). Control and domination through the use of intimidation, guilt, anger, and emotional displays are also forms of witchcraft. Fear, depression, confusion, disorientation, loss of vision, nightmares and headaches are some of the characteristics that may result from the influence of witchcraft (although most of these can also arise from other issues).

- Have you been dominated or controlled by anyone?
- Did you control or dominate someone else?
- Have you been experiencing fear, depression, confusion, disorientation, loss of vision, or nightmares?
- Are there witchcraft practices in your family background?
- Do you have objects of witchcraft in your possession – in your house or on your property (including drug paraphernalia)?
- Have you been rebellious to authorities in your life?
- Are there things God has specifically told you to do that you haven’t?
- Have you been involved in known satanic or witchcraft practices?
- Have you been involved in illegal drug usage?
- Have you ever submitted to hypnosis or been involved in a cult?
- Have there been any witchcraft rituals performed against/over you?
- Have there been false prophetic words (divination) spoken over you?
- Have word curses of death, destruction, or negative things been spoken against you?

Scriptures:

1 Samuel 15:22-23

James 4:17

2 Corinthians 10:3-5

Deuteronomy 18:9-14

James 4:7

Romans 13:1-2
